So when I saw a recent headline about the importance of removing chemical toxicity from our lives, I took a stab at creating an actionable message for readers. Here's a few words I used for my brand-new editorial board, The Frugal Connoisseur. I'm writing about removing chemical toxicity, but the subject also applies to human toxicity. And believe it or not, there's a possibility that we don't all have the same standards of safety, protection, and endurance when it comes to using toxic substances. It's important to keep in mind that everyone should be able to survive at all times; and if you're not, then things might get messy, too. Here are a few aspects of chemical and human toxicity, and the steps you need to take to avoid them. 1. Learn What It Means to Raise Child Safe Safe childrearing means learning to live
