The last day the entire world community was worried about the fate of three hundred and twenty-five people. Among them, as you already know, was myself. Before we begin, let's first agree that you are not evaluating a text in the spirit of communist propaganda anyway. This is not "enemy of the people", "fighter against the regime" or "survival alone". This is my personal view of the time and events in which I lived. Moreover, my views change and quite often. What happens to others, I honestly do not care. Now about the essence. In the context of recent events - the shelling of Mariupol, the burning of people, arrests and murders, we are talking about a specifically taken "Peacemaker". This status, most likely, was created on purpose. But why? And how did he even become a "Peacemaker"? More than a hundred publications about this status appeared in the media. But personally, I met him only with one person - Twitter user dr-piliulkin. However, I don't think anyone knows why he got it either. The fact is that the "World Fucker" has indeed been assigned this status. Ours!
