Most of the time, all we want to do is to log in to our online accounts, update our Facebook status or check our Twitter feed. But this usually comes with the inconvenience of having to log in to our websites from a new browser tab/window. Fortunately, a Chrome extension can make this task easier. We present to you the Chrome omnibox auto-fill or as some people call it the Google Assistant. After you install the extension, the URL of the website will be displayed on the omnibox. You just need to tap or click on it and you are done. The Google Assistant extension will provide you the most relevant search suggestions for the site you are on. For instance,
