India has urged Pakistan to reschedule and respect the Kartarpur Sahib Durbar on the occasion of the 550th birth anniversary of Guru Nanak Dev on November 12. External Affairs Minister S Jaishankar made these remarks in a note to Pakistani Foreign Minister Shah Mehmood Qureshi on the occasion of Guru Nanak's birth anniversary during his visit to New Delhi on Saturday. S Jaishankar, a former ambassador to the US and a former Indian envoy to China, stated that the Indian Government attaches great importance to the rehabilitation of the Sikh community in Pakistan. He also highlighted that dialogue between the two countries was the only way forward. Meanwhile, Pakistan has called upon India to observe the meeting, which was held through video link from a prison in Andhra Pradesh. Pakistan's Foreign Minister Shah Mehmood Qureshi also met with the Indian High Commissioner to Pakistan, Ajay Bisaria on the occasion. The Indian High Commissioner to Pakistan Ajay Bisaria, left, and Pakistan's foreign minister Shah Mehmood Qureshi on November 14, 2019 (PTI/File) The Pakistan foreign minister welcomed the Indian High Commissioner's "impressively productive" meeting with the prime minister's special assistant, Vijay Gokhale, and thanked the Indian side for the reciprocal visits to Kartarpur Sahib, the birth place of Guru Nanak, by the foreign minister and finance minister earlier this year. Mehmood Qureshi also stated that the two countries should work towards a "permanent solution" to the Kashmir issue. He hoped that the Indian side would urge the elected government of Jammu and Kashmir (J&K) to initiate steps for a dialogue with Pakistan. The two foreign ministers also discussed the situation in Afghanistan. Through the meeting, Qureshi appealed to the Indian side to respect the international

ASPEL PROD 2.0 CRACK Aspel/Tape 3.2 Crack Aspel Product 3.2.Q: How do I get the CPU Cores being used by a process in

TPL? Hi I have several processes which do not have a unique worker thread, they share the same single thread. Their goal is to perform similar tasks. Rather than creating a new thread for every one of them is there a way to use a thread pool that can handle multiple simultaneous threads? I need to be able to get the number of CPU Cores being used. Is this possible with TPL? A: If you have a System. Threading. Thread Pool (or in. NET 4.0, a System.Threading.ThreadPool.SynchronizationContext), the GetUtcProcessorInformation call will tell you how many cores the thread pool has available. //System.Threading.ThreadPool ThreadPool.GetUtcProcessorInformation() Or you can just get the Thread.CurrentThread.IsThreadPoolThread. Rockwood Macon-Bibb Hwy. 12 East Much of the work needed to make this area ready for future generations of families begins as soon as possible. In August 2016, the S.C. Department of Transportation's Capital Improvements Division selected a preferred alternative for the Rockwood Macon-Bibb Hwy. 12 East Urban Area. "A new pavement surface design, more appropriate traffic control and a new intersection design, are a few of the improvements selected," said Morgan County Engineer Jeremy Bunn, of the Macon County Highway Engineer's Office. All of the improvements discussed in the Findings Report that accompanies this Public Participation Plan will be funded by the State and carried out by the Highway Engineering Section (HES) of the S.C. Department of Transportation, said Bunn. "We would like to thank the community of Macon County for taking the time to submit a finding report," he said. "We are sincerely grateful for their help in making these improvements a reality." Rockwood Macon-Bibb Hwy. 12 East is located northwest of Macon, and is a two-
