Want to be a hero? Rise, Tarnished. Rise, Tarnished, the final chapter of the Elden Ring Online story, is an upcoming fantasy action RPG published by Big Hero Lab and developed by tri-Ace. It was a time of great turmoil in the Lands Between. For ages, the Dark Lord of Evil, the Iron Knight, had been hunting down the forces of Good. Though he had finally been defeated in the heart of the realm of Tarn, the bodies of his followers were still strewn across the landscape. As the new Lord of Evil, a new age of Darkness was about to begin. Over a year has passed since you defeated the Iron Knight, and since then, you have gradually begun to feel the overwhelming presence of evil. A sense of unease has started to spread. Suddenly, the very air is being torn apart by outbursts of extreme power and great wind. Now that you have seen the truth, you must rise and battle against this new terror. "The game has good and bad points. The story is a bit long, and the game definitely has issues during the combat where there are lag spikes. However, the game is fun and the well-designed dungeons and an enjoyable combat. Other than a lack of English audio, and fixed European servers, this is a solid RPG that should be picked up if you liked the Souls series but didn't like Dark Souls." RT 2013/06/19 17:31:01 "Customization comes in two forms, the one has a relatively small impact on the gameplay, while the other has a much more significant impact on the gameplay,

which is the way your character is represented in the game world. I'm not sure what to expect with regards to story and world building, but the one thing I am sure of is that when you cut the guy in half, you are not going to want to go back to the previous save system." The Armchair Empire 2013/07/02 19:14:04 "From the start of my time with the game, I kept waiting for a moment of game breaking lag, maybe a major transition in the story, but for the most part the game felt good. The combat was very well done and I enjoyed my time with it. I always will think fondly of the Elden Ring as a game that is unique in the genre, making up its own little corner in a sea of MMOs, and if you're looking for an online adventure with a deeper story, that might be right up your alley." The Nerd Stash 2013/07/15 00:08:48 "It is fun in single player, I just wish there was a multiplayer mode so that I could play the game with my friend who lives abroad." Twilight Desires 2013/08/11 00:59:17 "Overall, I really enjoyed the Elden Ring. While I am a fan of the Souls games, I am not as much of a fan of playing one-on-one multiplayer, and the Elden Ring has done an excellent job of balancing this with the role-playing aspects of the game. The combat is fluid, the characters are well-defined, the towns are actually interesting, and the dungeons are a blast to explore." TWiT 2013/08/25 13:57:13 "I wanted to like it. I really liked bff6bb2d33
