What's new:

Friday, May 11, 2017 I'm excited to announce the availability of a new game. Shroud is an action role-playing game set in a lush and vivid fantasy world. It tells of a conflict between two races: Elden and Fringe. The Elden race is a race of fair-skinned people with pink colored hair and a kind soul. The Fringe race have dark skin and sickly blood. At first sight, the races appear to be different, but as the story unfolds, you'll discover that the differences are merely superficial. Elden are peace-seekers, though they cannot fight and only depend on their weapons and armor to turn the tide of war. As for the Fringe, they belong to a race of warriors that worship evil. They come from another dimension and are capable of both physical and magic attacks without worry. The choices that you'll make along your journey will determine the outcome of the war, and who will prosper and who will perish. If you're looking for a tactical, fast-paced, and unpredictable action game, this is the game for you. Come back next week for a more in-depth review. Until then, I hope you enjoy reading my excitement. Wednesday, May 2, 2017 I'm happy to announce the release of Shadow Fight Legends! Shadow Fight Legends is an addicting and thrilling action game where you control a Shaolin monk to slash and parry all kinds of enemies, from simple foot soldiers to gigantic monsters, until you've completely destroyed them. Instead of fighting in a generic arena, the challenge in this game comes from fighting in a gorgeous world and exploring it. Each area has its own unique environment, and together, these environments and the characters that inhabit them become your allies and your enemies. As you progress through the world, you'll often be completely surrounded by enemies and challenging situations. Thus, you'll become more adept at safely and quickly navigating the world. Besides combat, you'll be able to equip a variety of gear with various stats, such as speed, shield strength, and health buffs, to help you defeat the opposition even further. While playing, you'll collect and upgrade a variety of items, which can be equipped, and add to the character's stats. You'll be able to equip your weapons and armor using materials which are eventually acquired by defeating enemies, and using that equipment can very easily

turn a basic melee weapon into an absolute powerhouse. As Shadow Fight Legends is
