How did you get started in 3D modeling and why did you choose to build 3d models for your games? For me 3D modeling was the only way to understand the real world. It was the best way to visualize 3D environments, better than any other tool. So, I just started 3D modeling! What is your favorite 3D modeling software and why? I started with Maya, and I love to see how my models look in 3ds Max. I also love posing characters and building scenes with both programs. I'm sure I'll start using Max soon. In the end, I'm very flexible, so it doesn't really matter for me which program I use. Do you have any advice for students who want to build 3D models? I'm not sure if you can call it "advice", but I remember having a lot of problems when I started. But, if you are a good modeler, you have a talent to create really amazing things. Also, be patient! I'm sure, now

that you've seen others' works, you will understand how hard it is, and you will make fewer mistakes. 0cc13bf012

Gold Edition. Q: Rails 3 - Strong Parameters not working I have
problem with strong parameters. I try to send this params with
ajax and when I try to access to params[:id] or
params[:id][:item] I have an error 404 not found. I post in the
app/views/items/index.html.erb file in a form_tag to submit the
form, I try to send params with ajax, so I send like this: var
form_data = \$('my-form').serialize(); \$('my-
form').submit(function(){ \$.ajax({ type: 'POST', url:
'/items/update', data: form_data }); return false; }); and in the
controller I try to get the params from request def update

```
@product = Product.find(params[:id]) # @product =  
  Product.find_by_id(params[:id]) # @product =  
Product.find(params[:item][:id]) respond_to do |format| if  
  @product.update_attributes(params[:product])
