----- Thanks for watching! In this video, I'll show you how to overclocked in a range of ways in Intel's i5-8250U processor. First up, we'll overclock using Intel's Extreme Tuning Utility (XTU). Make sure to know your motherboard limits, because you cannot use XTU to increase voltage in a certain direction. Next, we'll overclock using Intel's Custom Speed Step Software. This is an effective way to boost the CPU's performance to levels you

Easily access all overclocking parameters from a single application, without the need to go through menu's. An integrated timer with a resolution of 1ms allows you to see the exact moment of each change of the overclocking parameters. An advanced calibration of the equations used to calculate the overclocking parameters makes it possible to have a more precise control over the overclock. Advanced overclocking algorithms, based on empirical data, allow the user to optimize automatically the overclock, depending on the graphic card and on the computer environment. Malaria epidemics have occurred every year in the Madras Presidency since the mid-1800s. On the basis of two independent data sets (1851-1875 and 1886-1924), monthly malaria incidence rates in Madras have been estimated. In Madras the annual malaria incidence decreased from 5-8/1000 population in 1851-1875 to 0.3-0.7/1000 population in the pre-chloroquine period (1886-1924), but increased to 4.5-13.5/1000 population from 1925 to 1954. The risk of infection decreased significantly from a peak of 7.9/1000 population/month in 1926 to 0.33/1000 population/month in 1954 (negative binomial model,  $p = 0.0002$ ). Epidemiological patterns suggest that the net benefit of continued malaria control has been

greater than that of the malaria mortality.Q: Mapbox Android App Default Style I am wondering if I can access the default Style that is shown when you create a Mapbox map in Android studio? I have search a lot in the GitHub and only found information on how to create new maps, but not about getting the Default one. A: To get the default style, you can call the method `onMapStyleLoaded`. This callback method gets fired when the `onMapReady` method gets called. That said, If you just want to know [aa67ecbc25](#)
