Venaitura is a turn-based tactical RPG with roguelike elements and simulation and management elements. You can choose the magic powers of your four Champions and can equip them in thousands of items and armor. The game includes a large and rich map with over 150 dungeons. Each of the four Champions has its own fighting style, and each has a specific ability/spell combo. For example, if you select a magic-user, the ability-using skills will be used for healing and if you select a melee damage-dealer, the item-gathering skills will be used for healing. The monsters in the game differ by each area they're encountered.

When a Champion interacts with a monster, their values and stats will change. Venaitura offers plenty of challenges from the beginning of the game. The game begins with a four-level party and each time you start a new game a new level is added to the four-level party.

You have to face enemy monsters, events, and quests. During this journey you have to collect items and experience to improve your Champions in order to forge weapons, armors, and magical weapons. The battles in Venaitura allow for the collection of experience points, gold, elixir, and items and you can manage your money from the money bag. All major events, quests, and dungeons are synchronized with real world time so you never have to worry about waiting for a particular event to be loaded. What's new in Slender Threads:

Thursday, 14 July 2012 German publisher Tunturi (above) and Turkish comics licensing firm DCS have entered into an agreement to publish Mario Bava's Pink Film. The Richard Fleischer 1982 film will be published in Italian and Turkish, with over 40 books produced for the respective markets, says Deadline. Tante Både, a collected story directed by Michaël Schifferman, will be published in Italian and French next April and includes material from V.D. Naples: The Women's Network, a 1974 documentary by Livia Boccierivanti and Sandra Lambri, shot in the city. Livio and Sandra have left details of their involvement in the documentary on its dedicated Facebook page: "[it] was shot at the request of the deputy mayor of Naples, Gina Barni, without our consent or collaboration, as our primary intention had been to bring attention to the wretched and almost inexistent condition of the society in developing areas". The book will also include a DVD/booklet of Livia and Sandra's The Lies of the Attorneys, filmed in the 1990s by Hatem Abu-Shanab. Clips were uploaded on YouTube a few months back. According to Flooren.it.it's Italian publisher Actes Sud and Roma Cinematografica, the publication of this book will seem to be an Italian version of the film itself. Although I won't be terribly surprised if this isn't the case. I mean, let's face it, most Italian publishers do publish translations of foreign films... John Landis (American Werewolf In London) and Doug Stanhope (Teddy Perkins on the Soup) also star. Dan O'Brian co-wrote the script - based on an original idea by Dennis Murphy - with Landis. Warner Bros Pictures will release Dracula this year. Its U.S. release will be on 1 October 2013. Meanwhile, an Italian independent title company Backlick has joined forces with officials from the
