1. Character Creation First, you will choose a class and gender. Then, you will choose a character name and race. Finally, choose a weapon and armor for your character. 2. Starting Location and Special Items When you enter the game, you can choose a starting point: a town, or a dungeon. Next, you will be transported to a certain location of the map. In this

area, you will start receiving quests and be able to interact with other characters. You can choose to take on quests, purchase items, or enter a Dungeon.

3. Dungeons

Dungeons are challenging, instanced-level dungeons with unique visuals and item drop rates. There are different levels of dungeons, and every dungeon has a special mission.

4. Explorable World

In the explorable world, you can explore towns and dungeons. In dungeons, you will receive quest items and occasionally receive the drops of loot, which can be exchanged for powerful items. You can also fight monsters or bosses to obtain items.

5. Map

The game map consists of three maps. To move your character between maps, you will first have to

explore a new world. However, you will not be able to play the story in the same order as you play in the explorable world. To change the map, you will be required to transfer your character to a dungeon. 6. Battle In battle, you will have to attack the enemy using special skills. 7. Loot In battle, you can defeat monsters to obtain various items. The amount of drops is determined by the level of the dungeon, and the drop rate for rare and special items is also increased.

However, when the conditions are not favorable, you can only obtain less drops than normal. 8. Training You can train your character in various skills in towns. This ability is necessary in order to obtain skills that you do not have. 9.

Players Players who are connected to the game are displayed as white letters in the middle of the screen. You can directly communicate with them, or you can view their names by using the quick menu.

10. Character Class and Race

The character you create in the character creation system has two character classes and three races. You can choose from the two classes, Warrior and Mage, and the three

1. Field of the Invention The present invention relates to a rear wiper structure for a vehicle and, more particularly, to an improved rear wiper structure

for a vehicle that is able to prevent a leakage of rainwater in the form of a water droplet from a vehicle door during rain and improve aesthetic appearance.

2. Description of Related Art Generally, a wiper is installed in vehicles to provide a function of wiping away dust and dirt from a front glass to keep clean the front glass and a rear glass during driving. When the wiper is used in vehicles, a motor is

mounted in the wiper and a wiper blade is moved to contact the glass surface of the front and rear window to wipe the glass surface.

Meanwhile, when the wiper is used in rainy weather, it is important to keep the wiper in a normal position in order to prevent a leakage of rainwater from the door through the door panel and to prevent raindrops from dropping onto the passengers who are seated on a seat behind the door panel.

Meanwhile, when the door of the vehicle is closed, a leaf spring is additionally disposed under the door panel to dampen the shock generated when the door is closed. However, the leaf spring is used only for dampening, and the leaf spring is not able to prevent

raindrops that drop on the door from leaking through the door panel. The information disclosed in this Background of the Invention section is only for enhancement of understanding of the general background of the invention and should not be taken as an acknowledgement or any form bff6bb2d33
