TABLE OF CONTENTS INTRODUCTION There is a great, ancient power that the world has long been awaiting, and it is the Tarnished Son of Combrei. The Elden Ring, the power behind the Dark Oath, has managed to obtain remnants of magic that will grant the clan members the enormous power they have been craving. In spite of that, the strength of the enemy clans and the strength of the monsters on the Frontier have grown even more, and a war of empires has continued for a very long time. The Elden Ring, their hopes, and their thoughts remain firmly placed on the things to come. The world is full of problems, but the time of change, the rising of a clan, and the reappearance of the ancient power, has come at last.

CURRENT PROBLEMS AND CHALLENGES Crisis of attrition Based on the battle result, the attrition suffered by the Tarnished Son of Combrei was very high, with the majority of users very disappointed. Although the drop rate is supposed to be fairly low, you will be disappointed if you lose even a single battle. After looking at the reasons that cause this problem, we will resolve the problem in the near future.

nightmare scenario could be playing out in the streets of northern Syria, if the US, Turkey and Russian positions on a proposed solution for a five-year-old crisis aren't reconciled. The three countries have agreed upon a roadmap which calls for all of the territory held by the US-backed Syrian Kurdish People's Protection Units (YPG), to be cleared of the terrorists that have held it for the last five years. But that implies that there are hundreds of thousands of civilians, and possibly tens of thousands of ISIS jihadists, still lurking in that part of Syria -- or the YPG will hold it indefinitely. US negotiators are desperate to get the plan in place before the summer, the so-called summer cease-fire is set to start. But, so is Turkish President Erdogan, who would, in a worst-case scenario, be forced to use the support of his Russian allies to cleanse the area of the terrorist or risk losing face. "We are hoping that we can find ways of dealing with this issue so that Syria does not remain in the purgatory of permanent war," said one US diplomat. If the cease-fire is maintained, it means "they're basically sending us out into a good-bye-and-thanks-for-the-trouble situation," said another diplomat. "There are not enough forces to deal with ISIS." "We don't know what the Turkish position will be on that," a former diplomat told Fox News. "They said they will allow the YPG to leave; what will be the final status of those areas? Will the Turkish military be in there? Could they find acceptable positions for them." A third diplomat said he feared that any agreement reached would not be honored by Turkey, as they are concerned about too many

Introduction & Game Overview We are currently updating the entire staff of online game development, which will require us to make various adjustments with our game. We are also planning to release patches that include content to improve the game even further. We are currently adjusting the various classes based on the feedback we have received, and we are also implementing a more varied design for skills and Magic. In addition, we are making preparations for the event featuring the new Tarnished class. In addition, we are also making improvements to the UI of the game. Please enjoy the game as much as possible while the game is under maintenance. We apologise for the trouble that this may cause, and we promise to release patches that will resolve any problems as soon as we can. Please do not hesitate to email our support staff if there are any problems with the game. Thank you. Elden Ring Team

NEW CLASS
Tarnished class New weapons and equipment have been implemented
GAMEPLAY Adjusted Matchmaking. Refined Action Point System. Main Weapon Mastery: The class mastery of the main weapon has been adjusted to give the desired effect of players who are in the early stages of the game. A skill called "Channel: Overhaul" has been added to the Mastery of the main weapon. Using this, you can apply Overhaul to your main weapon. Overhaul enhances the main weapon by increasing its strike power and damage. The "Overhaul" effect of the main weapon can be obtained by consuming materials or practicing the skill. When your main weapon has the Overhaul effect, you can also use it while enchanted. If you have the Overhaul effect on your main weapon, the effect will be applied as long as your main weapon is not destroyed. However, the duration of the Overhaul effect on your main weapon will be reduced when you increase the level of your weapon.

NEW EVENTS Tarnished event. Tarnished: For the special event of Tarnished, we have introduced the Tarnished event, which is a special event that allows you to enter the event content available for the Tarnished class. Tarnished Skill: The Tarnished skill has been added to the map. By using it, you can change your main weapon and main weapon mastery to the Tarnished

MEDICINE MASTER: Your health has been restored. It will take effect after you sleep for a day. The fact that you are in a weakened state will help you evade the opponent's attacks and win a tight battle.

A beloved son of the house! I trust you were able to rescue Amantine.

Elden Hopper, from Granthia, is very skilled with a sword, but his knowledge of the healing arts exceeds all expectations. Furthermore, he has enchanted the weapon used to rescue Amantine. Please meet me in the training hall once your hands and feet have healed.

Dearest one, I am concerned about the state of your body that has been denied time to recover. I recommend taking a hot bath every morning and night before sleeping. I will prepare a potion to restore your health, along with healing purple grass and healing stone. Using the princess' belongings on the Elden Ring costs a large amount of healing elixir. Using the potions is as follows:

- Closely monitor your temperature and avoid lack of exercise. If your body temperature reaches over 38 degrees, drink a healing potion. If your body temperature dips below 35 degrees, you must remain in a hot bath.**
- Avoid public or crowded places. If you need to dress, wear light clothing with a thin layer and undertake light exercise. For utmost speed, try running. And by all means, eat plenty. I will send out healing elixir with the letter. A green flower-shaped encampment should be located around your bed. This will prevent insects from jumping on to you at night and will protect you from attacks from fairies in addition to yourself. Please take this into consideration. I am worried that the course of events has made you weak. A hot bath every day and light exercise should help speed your recovery. Lady Aurora Setelastra delivers an item enclosed with the letter.**
